Other Plan Information

- If a generic drug is available but not dispensed, the Insured may be required to pay the difference between the generic and brand name drug cost.

Benefit Summary PPO - 100/70

- Treatments of any condition for which benefits are recovered under any Workers Compensation or Occupational Disease Law are excluded.
- Emergency services performed by non-participating providers will be paid at the in-network benefit levels contained in the plan document. Included as covered under the in-network benefits are: emergency room charges, emergency room physicians, laboratory and x-ray charges, radiologist and other charges incurred while being treated in the emergency room and subject to URC charges.
- Each child who is under the age of 26 years old may be covered under this Plan. When the dependent child reaches age 26, coverage will run through the end of the month of the child's 26th birthday.
- **Motor Vehicle Exclusion.** BENEFITS ARE NOT PAYABLE UNDER THIS PLAN FOR INJURIES RECEIVED IN AN ACCIDENT INVOLVING A MOTOR VEHICLE (AS DEFINED BELOW). It is your responsibility to obtain Motor Vehicle insurance and designate it as the primary payer of medical benefits for you and your Family in the event of an auto accident. You will not have any medical expense coverage available for auto-related injuries under this Plan. If a Participant is involved in a Motor Vehicle Accident as a pedestrian and incurs medical expenses as a result of the Accident, this Plan will be the secondary payer and any other insurer that may have liability for the medical expenses Incurred by the Participant will be primary to this Plan. **Definition of Motor Vehicle** - "Motor Vehicle" means a car, truck, motor home, or other vehicle, including a trailer, operated or designed for operation upon a public highway by power other than muscular power, which has more than 2 wheels. It does not include a motorcycle, moped, all-terrain vehicle (ATV), or off-road vehicle (ORV);
- **Motorcycle Exclusion.** If a Participant is Injured in a Motorcycle Accident as an operator of a Motorcycle, benefits will not be payable for the Participant, as further described below.

Notwithstanding the Coordination of Benefits section of the Plan, the following special coordination rule applies regarding any claim for benefits relating to an injury or illness incurred in or otherwise related to a Motorcycle accident.

Motorcycle Accidents Involving a Motor Vehicle

If a Participant is injured in a Motorcycle accident that involves a Motor Vehicle, claims will be processed in accordance with the Plan's position on Motor Vehicle accidents.

Motorcycle Accidents NOT Involving a Motor Vehicle

If a Participant is operating a Motorcycle and is injured in an accident that does not involve a Motor Vehicle, this Plan will exclude coverage for the first \$50,000 in eligible charges or, if greater, the amount of health benefits payable by the Motorcycle insurance policy. This Plan will then be the secondary payer and any insurer or other plan that may have liability for the Participant's medical expenses will pay primary to this Plan. It is the responsibility of any Participant who operates a Motorcycle to ensure that he or she is covered under a Motorcycle insurance policy that will pay at least \$50,000 in health benefits for him or her per accident. This requirement applies even if the Participant is not legally required to have such health benefit coverage. If the Participant fails to maintain \$50,000 of coverage through a Motorcycle insurance policy, the difference between the policy's maximum payout per accident (if any) and \$50,000 will be the Participant's responsibility.

A Participant who is riding a Motorcycle as a passenger and is injured in an accident that does not involve a Motor Vehicle will not be subject to this provision and will not have his or her otherwise eligible claims excluded from Plan coverage as described above.

Motorcycle Definition

For purposes of the above exclusion, "Motorcycle" means any Motorcycle, motor scooter, moped, or other similar motorized vehicle that has two wheels (including a three-wheel Motorcycle) and that is operated or designed for operation upon a public highway. It does not include an all-terrain vehicle (ATV), off-road vehicle (ORV), or other motorized vehicle not designed for operation on a public highway.

- For full exclusion information, please see your plan document.

This is a general outline of covered benefits. It does not include all exclusions, reductions of benefits, or terms under which the self-funded plan may be continued or discontinued. The Plan Document is the legal document under a self-funding ERISA plan, which lists all exclusions and coverages.
